**REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: the prior art of record teaches a liquid crystal display device, comprising: a liquid crystal layer that is held between a first substrate and a second substrate, in which each of dots contains a reflective display region for reflective display and a transmissive display region for transmissive display, the liquid crystal layer being composed of a nematic liquid crystal aligned substantially perpendicularly to the substrates and having a negative dielectric anisotropy; a first retardation film having an optically, a second retardation film having an optically, and a first polarizer that are arranged in that order outside the first substrate; and a fourth retardation film having an optically, a second polarizer, and an illumination device-that are arranged in that order outside the second substrate.

The prior art of record does not teach in combination with the limitations supra a first retardation film having an optically negative uniaxiality, a second retardation film having an optically positive uniaxiality, and a first polarizer that are arranged in that order outside the first substrate; and a fourth retardation film having an optically positive uniaxiality, a second polarizer, and an illumination device-that are arranged in that order outside the second substrate.

The prior art of record does not teach in combination with the limitations supra a second retardation film having an optically positive uniaxiality, and a first polarizer that are arranged in that order outside the first substrate; and a third retardation film having an optically negative uniaxiality, a fourth retardation film having an optically positive uniaxiality, a second polarizer, and an illumination device that are arranged in that order outside the second substrate.

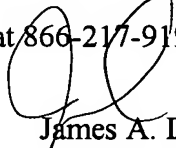

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James A. Dudek whose telephone number is 571-272-2290. The examiner can normally be reached on 9:00-5:30.
